

Parade To Open Baseball Season For Leagues

A parade of league players down Main Street, Hazard, Monday night at 5 p.m., will kick-off the 1958 baseball season here for the Little League, Babe Ruth and Minor League.

Led by the Hazard High School band, the players will march down Main Street and up Broadway to Collins Field for the first game of the season, sending the Yanks against the Dodgers in the opener and the Braves against the Indians in the nightcap.

Pre-game ceremonies at the field will include an invocation by the Rev. Winn T. Barr and an address. Mayor Douglas Combs will toss in the first ball of the season.

The game will start at 6 p.m.

Tuesday night, Babe Ruth players swing into action when the Miners engage the United Commercial Travelers at 6 o'clock. Muncy's Service Station and the Lees V-8s clash in the second half.

For the parade, Babe Ruth players are requested to be at the Kentucky Power Co. at 5 p.m. in uniform if possible.

Kodak Sergeant In Maneuvers

(AHTNC)—Army Sergeant First Class Hayes Stidham, son of Mrs. Hattie Stidham, Kodak, recently participated in intensive field training maneuvers with the 8th Division's 13th Infantry in Germany. A squad leader in the infantry's Company C, Sergeant Stidham entered the Army in 1940. He arrived in Europe last January and holds the Purple Heart, the Bronze Star Medal for valor and the Combat Infantryman Badge among his decorations.

Former Resident Wins \$2000 Sales Scholarship

Judy Reeves, Cincinnati Hughes High School senior and a former Perry County resident, was named the first recipient of a \$2,000, four-year scholarship to study salesmanship and marketing at Chase College.

Miss Reeves is the daughter of Mr. and Mrs. William A. Reeves, 2435 Ohio Avenue, Clifton Heights, Cincinnati. The Reeves family are former residents of Hazard.

She was also awarded a wrist watch by the Cincinnati Sales Executive Council of the Chamber of Commerce recently. The scholarship was awarded on the basis of comprehensive salesmanship and marketing presentations submitted after a series of lectures on the subjects given in public high schools by Council members. The lectures have been given for several years, but this is the first time students of the course were tested.

Local Soldier In Field Drill

(AHTNC)—Army Acting Sgt. Thurman Miller, 20, son of Mr. and Mrs. Boyd Miller, Blue Diamond, recently participated in intensive field training maneuvers with the 8th Division's 13th Infantry in Germany.

A squad leader in the infantry's Company D, Sergeant Miller arrived in Europe in September 1956.

Dealers Praised

Automobile dealers in the Hazard area were praised this week by Jack F. Wolfram, general manager of Oldsmobile and a vice president of General Motors, for their initiative and economic leadership in promoting a special "Auto Buy" week to stimulate the business outlook. The Oldsmobile chief executive pointed out, "The sort of 'buy-in-confidence' approach will help a lot toward keeping everyone on the road to prosperity."

Court Asks Review Of Flood Claim

A complete review and re-audit of Perry County's flood disaster claim is being requested of the Office of Civil Defense by the Perry Fiscal Court.

County Judge J. A. Smith announced today that a resolution prepared by the court will go into the mails this weekend to the Office of Civil Defense.

The resolution asks that the C.D. administration send engineers back into Perry County to re-examine all the work done here.

The complete text to the resolution is as follows:

"WHEREAS, in January, 1957, Perry County was stricken by a disastrous flood, which destroyed the homes and roads of Perry County, all forms of communication and transportation. The economic condition of Perry County was brought to a standstill and for a long time thereafter, Perry County suffered from Economic Paralysis, and

"WHEREAS, the Federal Civil Defense Administration offered aid and relief to the Citizens of Perry County, and such relief was gratefully accepted, and without which aid and relief little or no rehabilitation would have been possible to the extent accomplished, and

"WHEREAS, based upon the actions and promises of the Civil Defense Administration, The County entered into contracts and underwrote the borrowing of money for the purposes of accomplishing the objects and purposes of said aid and relief for the Citizens of the County, and that such forms of obligations and burdens amounted to approximately \$91,000.00 over and above the amount paid to the County by the Civil Defense Administration, and the County has made claim therefor, and

"WHEREAS, such claims have from time to time been presented to the Civil Defense Authority and at a meeting held on May 7, 1958 between the officials of the Civil Defense Authority and the Officials of Perry County at Frankfort, Kentucky, the Civil Defense offered to settle the Claim of Perry County for the inadequate sum of approximately \$23,000.00 and

Perry's Road Share 'Is Disappointing'

Perry County Judge J. A. Smith this morning expressed vast disappointment at Perry County's share of the \$780,000,000 State and Federal highway program, announced yesterday morning by the State in the Louisville Courier Journal.

Of the announced program, Perry County will participate in \$4,322,000, or but .0057 percent of the entire amount.

The Herald today learned from Frankfort that two Perry County projects were inadvertently omitted from the Courier-Journal list.

One is the rerouting of Ky. 15 for 4.5 miles, Bulant-Lotts Creek, from improved section near junction of Ky. 267 to Breathitt County line, \$1,278,000.

The other: Ky. 15, rerouting 2.5 miles, Bulant-Lotts Creek from present Ky. 15 at Bulant to improved section \$426,000.

The projects announced by the C-J, Wednesday were: Ky. 80, Perry and Knott counties, from Hindman to Ky. 15 at Dwarf, 13 miles, \$2,260,000.

Ky. 315, Breathitt and Perry counties, from mouth of Canoe Creek to Buckhorn, 10.8 miles, \$358,000.

Judge Smith said today: "Perry County was not given sufficient consideration when the program was prepared. There should be some reconsideration given to cover a number of other roads in the county which need work."

He continued: "I presume the program is mostly tentative and there should be considerable readjustment for this county to see that Perry County gets its fair share of the State and Federal money appropriated for building highways."

Obviously disappointed, Judge Smith continued:

"Our people here feel that Perry County has been neglected for such a long period of time that it is now gotten to the point we aren't being considered for anything. We believe the administration will surely try to correct this situation."

Judge Smith said the people of Perry County are "deeply concerned" about the entire road situation and "they feel a readjustment should be made."

The reaction to the county's share has already created quite a stir. Main Street, Hazard, and courthouse circles were unquestionably disappointed about the announced program.

The projects were approved Tuesday afternoon by the Governor's citizens advisory committee on highways.

The plan is the nucleus of a five-year program of construction in federal-aid projects of the primary, secondary, urban and interstate systems. It does not include any part of the rural-roads program.

Water District Around Corner For Combs, Wabaco, Lotts Creek

The call is out now for residents of Combs, Airport Gardens, Wabaco and the Mouth of Lotts Creek—who want running water in their homes from their own water system.

Bruce Stevens, local attorney, announced this week that workers are needed to circulate the water "user agreements" for the proposed North Fork Water District.

The "user-agreement" is a contract expressing the property-owners desire to have the water district.

(Ed's Note: Kentucky laws provide for establishing and operating water systems in rural areas, or in communities where there are no water systems. Financing is done through revenue bonds, with the districts paying off the obligations of the system over a period of years.)

Stevens said this week that the water district for Combs, A.G.; Lotts Creek and Wabaco has progressed rapidly, since the idea first found birth here in September when over 100 residents of the area petition the county court for a water district.

Named commissioners were Harold O'Neal, administrator, Miners Memorial Hospital, Carl Kelly, Combs, and Doyle Leveridge, Airport Gardens. The positions are unsalaried.

Stevens noted that the "user-agreements" are needed now to determine just what size water system will be needed by the area and for preliminary engineering work.

The user agreement, he added, commits a residents to a \$5 payment for financing the engineering work. If the water system goes through, the agreement obligates patrons of the district to a \$45 payment which will go for the water meter

and connecting fees.

Right now, the problem, Stevens added, is finding workers to canvass the area and get the agreements signed.

Stevens noted that while over 100 persons petitioned the county court, it will take "many more than this to justify the establishment" of a water system.

He said:

"If this project is successful, the property owners will immediately see the value of their land increase far beyond its present worth. The district will be suitable for industrial sites if the people desire industry."

He noted that the "decrease in fire insurance rates" alone will "more than pay the tie-on charge over a few years time."

He said that persons who fail to sign user agreements "may not get any water at all." He explained that it will probably be impossible to design and "build a system which will be adequate for the needs of everybody unless a very good percentage of them sign up now."

He said that the eventual \$50 charge is considerably "less than it cost to tie a customer onto the line," noting that anyone who waits until the systems is built before signing a user agreement "will certainly have to pay much more."

Stevens said the water district for this region "was one of the best ideas to come along here in a long while."

He said: "The health, safety and convenience, and even pride in one's home and community which a good water system is sure to promote, is a thing which can't be measured in dollars and cents."

New Lasting PROTECTION

AGAINST TERMITES AND MANY HOUSEHOLD PESTS

NIX-A-MITE

TURB-O-FOG

Tubing System

Saves Money—Eliminates Worry!

Now, with the turn of a knob, you can maintain continuous protection from termites and many household pests with a NIX-A-MITE Turb-O-Fog tubing system. This is a system made up of life-time perforated tubing installed below the floor joists in the understructure of your home and within the outer walls. Just turn the knob, and highly toxic insecticides are forced through this network of tubing under pressure, up to 1000 pounds per square inch. Applying this high pressure for only 30 seconds creates a turbulent foggy vapor that blankets the entire vulnerable area, leaving crystals which are lasting and deadly to insects. Supplemental treatment, as needed, will provide control of many household pests, including roaches, ants, waterbugs, silverfish, crickets and larvae of mosquitoes and flies.

BUILT-IN GUARDIAN OF YOUR HOME

A NIX-A-MITE Turb-O-Fog tubing system can be easily and quickly installed in any home, old or new—and it provides continuous protection. Once installed, it becomes as much a part of your home as the plumbing and is as easily operated.

NIX-A-MITE Turb-O-Fog tubing system is "built-in" for keeps—a permanent guardian of your home and investment.

Prices For Whole Year Important Factor In Program

Under the wool payment program, it will pay farmers to consider carefully the possible cause of wool prices during the entire marketing year when selling their wool, according to Mr. Roy C. Gray, Chairman of the Kentucky Agricultural Stabilization and Conservation State Committee, in a statement from him to Perry County ASC Chairman, Green B. Brashear.

While market prices differ greatly for the wide range of grades and classes of wool produced, each individual grower should market to get the best possible price for his quality wool. Growers who sell their wool when marketing prices are highest for the year benefit in two ways:

- (1) More money at the time they sell their wool and
- (2) Larger payments under the incentive program.

In making plans for selling their wool, Chairman Roy C. Gray said, producers might want to study the relationship of domestic wool prices to world wool prices. During the period of the wool price decline in recent months, wool prices in the U. S. have become lower than usual in relation to reported prices in the world market. Prices being offered growers for their wool may be reflecting a situation comparable to that which existed in late 1955 and early in 1956 when prices in the domestic market were lower than usual relative to reported world prices.

The chairman said it is impossible at this time to predict precisely the rate of incentive payment to be made in the summer of 1959 on wool sold during the current marketing

year. The rate will be figured on the basis of the national average price received by all producers for wool sold during the 12-month period. This national average is a "weighted" average and will depend on the course of wool prices from now through next March and the volume of wool sold each month.

Growers in selling their wool during the marketing year will determine the national average price for the marketing year. Free selling early in the marketing year under conditions of uncertainty in the wool textile industry could result in a low national average price which would unnecessarily increase payments and the cost of the cost of the incentive program.

From new Safety-Twin headlights to new sculptured rear deck, every gleaming line of this Fairlane Club Victoria says "fine car!"

Look what you've been missing if you haven't driven a 58 FORD

You just can't appreciate all the wonderful things that have been done to make driving more fun... until you've checked out in a shiny 58 Ford!

The fun begins with the simple act of getting into the car. Only "yesterday" it was stooped down or knock off your hat. Now that has been changed. There's room for you and your hat inside the 58 Ford.

Even before you start the engine, notice how much more you can see. Full-Circle visibility lets you see where you're going... see what's coming... see to park!

Now touch the starter. Observe how smoothly your engine idles. That's because each Ford engine is built with painstaking care. Each V-8 is electronically balanced while operating under its own power. No other car in Ford's field goes to such lengths to bring you an engine that will operate smoothly... dependably... efficiently. (If your pick is a thrifty Six, you can't buy a more powerful, more modern 6-cylinder passenger-car engine than Ford's 145-horsepower Milage Maker Six.)

Ease down now on the throttle and you'll take off with all the dash and verve of a Thunderbird! For after all, the 58 Ford offers you the Thunderbird's own transmission and engine! Team Ford's Cruise-O-Matic Drive with a Thunderbird-powered V-8 engine, and save up to 15% on gasoline. It's like getting back 15¢ on every gas dollar!

Next hunt up the roughest roads you can find. Notice how bumps lose their bounce with Ford's softer-riding suspension system. Notice how Ford's exclusive Automatic Ride Control combines Angle-Poised Ball-Joint front suspension with long, tailored-to-weight rear springs so that you ride level... corner level... enjoy a "big car feel."

And Ford gives you more—much more in the way of riding comfort. Ford seats are wide—sofa-wide. You sit in a relaxed, natural position with Ford's Automatic Posture Control.

Always a leader in safety, Ford again has pioneered new features to protect you. New Safety-Twin taillights, for example, keep you safer because they give better warning to cars behind you. And only Ford offers you famous LifeGuard Design—the whole family of safety features designed to protect you should an accident occur.

Then there are the hidden values that are yours when you choose Ford. The car is put together with fine-car precision. The finish is durable enamel—baked enamel that helps Fords keep that new-car shine. On the inside, too, Ford cars give you more insulation than any other cars in Ford's field.

Why not discover all you've been missing if you haven't driven a 58 Ford? See your Ford Dealer and find out firsthand all the wonderful things that have happened to Ford. And remember: a comparison of manufacturers' suggested retail delivered prices shows that Ford is lowest priced of the "low-price three" in 17 out of 19 comparable models! So why not make tomorrow your day to drive a Ford? The keys are waiting for you at your Ford Dealer's. See him and discover all the fun a Ford can be!

Spring Has Sprung; Uncle John Wooton Ill; Combs Residents Move To Florida

Clara G. Kelly

It seems as if "Spring" has finally "sprung" and along with it lots of visiting among neighbors and relatives as well as garden planting and cleaning up after the long hard winter. It's great to hear the fish tales being told especially about the "ones that got away" and each tale gets a little bit bigger each time it's told.

Mr. and Mrs. Aden Morgan and son, formerly of Leslie County, have moved into Walter Hughes apartment. We're fortunate to have these nice people residing in our community.

Mr. and Mrs. Walter Hughes, long time residents of Combs

have recently moved to Ritusville, Fla. where they are living "the life of Riley." I guess after all those years of hard work they are entitled to take it easy. However, we sure miss them and wish them the best of luck.

One of the familiar scenes we now miss is that of Uncle John Wooton going to and fro selling his "Saymen" products. Uncle John, who is 87 years young, is very ill at the home of his son, W. R. Wooton. How's about sending Uncle John loads of get well cards so that he'll know we're all praying for his recovery.

The Baptist Church is having a revival beginning June 1st with Rev. Ray from Hyden

doing the preaching. We're earnestly praying for a good revival and extend an invitation to all to attend.

Mr. and Mrs. Carl Kelly, Mrs. Tommy Kelly and daughters motored to London Sunday to meet Mrs. Molly Jackson who is visiting them from Jellico, Tenn. While there, they visited Mr. and Mrs. Charlie Lanham, formerly of Combs.

Mrs. Maude Combs is ill at her home in Combs. We sincerely hope she will soon be well again.

Mr. and Mrs. Alex Allen and daughter visited friends and relatives in Booneville, Sunday.

Mr. and Mrs. Norris Nolan and son, Rickey, of Dayton,

Ohio, are visiting her parents, Mr. and Mrs. A. H. Anderson.

Mr. and Mrs. D. P. Peyton, of Dayton, Ohio, visited with Mrs. W. T. Stamper, Mr. and Mrs. A. H. Anderson and Mr. and Mrs. George Nickell.

Did you know that we have a resident 103 years young living in our community? He resides with his daughter, Mrs. H. H. McIntosh. The Lord has certainly blessed this "young fellow" with a long life.

Tommy Jean and Jimmie Lou Kelly were saddened over the death of their 3 year old pet duck "Ricky" who was killed by a car. Ricky could do most everything but talk. All the children around loved her and will miss her "quacking" at them as they passed by.

We're so glad that Mrs. "Doc" Campbell has recovered from her recent illness. She gave us all quite a scare but the good Lord has blessed her to be back with her family again.

Tommy Kelly, Jack Gabbard, Clayton Burton and Fred Files went fishing at Somerset over the weekend.

Mrs. James McIntosh, of Red Fox, has been visiting her daughter, Mr. Alonzo Nickell.

M. H. "Pap" Wells and Jiggs Combs spent Friday in Campton and Jackson visiting friends and relatives.

Mrs. W. T. Stamper is visiting relatives in Dayton, Ohio. Lewis Herald has returned to his home after being in the hospital for a while. He has been seriously ill but is on the road to recovery now.

Mr. and Mrs. Charlie Lykins and Ted Rodney Hayes visited the Lykins daughters in Ohio over the weekend.

Congratulations to Louise and Frank Benson on the recent arrival of their baby daughter. Mrs. Benson is the former Louise Crawford of Combs.

That's all for now folks. See you in the next issue.

Shoal Woman Dies Of Long Illness

Elvira Bolin, of Shoal, died at the age of 73 at the Mount Mary Hospital May 14, after an illness of about 6 weeks.

She is survived by four children, Lester Bolin of Shoal, Delmer Bolin of Dryden, Ralph Bolin of Camp Breckenridge, and Mrs. Lola Brumlow of Soddy, Tenn.

The funeral was May 16 at the Engle Funeral Home Chapel with the Rev. Winn T. Barr officiating. Burial was in the Gayheart Cemetery on Lost Creek.

The Engle Funeral Home was in charge of arrangements.

Mr. and Mrs. Ernest Hensley and kids from Bullsken, spent the weekend with Mr. and Mrs. Harlan Woods and family. They also visited with Mr. and Mrs. Henry Couch at Saul.

Mr. Silas Gibson from Sizemore, visited with Miss Marie Couch at Saul, this past Sunday.

Mr. Earnest Rice from Shoa, attended church at Saul over the weekend.

Mr. and Mrs. John Gay and son, Bailey, also Mr. Felix Woods and Mickey Ann Hollow, visited at the Smokey Mountains, over the weekend.

Mr. and Mrs. Jim Spurlock and daughters, Wanda, and Edna, from Saul, attended a church at their old home place on Squabble Creek, Sunday.

Mr. Joe E. Estep from Brutus, was visiting the home of Mr. and Mrs. Joe Couch at Saul, Saturday morning.

Miss Elsie Mae Bradley and Ethel Jackson from Saul, visited the home of Mrs. Mary Bowling Campbell on Bullsken, Friday morning.

Mr. Finley Gay from Bowlington, visited with Mrs. Alice Estep and Sudie also Mr. and Mrs. Roy Estep at Saul over the weekend.

I would like to announce the wedding of Miss Jeanette Couch the daughter of Mr. and Mrs. Joe Couch at Saul and Mr. Troy Estep, the son of Mr. and Mrs. Jim Estep at Bullsken.

Mrs. America Woods, of Saul, has recently broken her arm when she fell over a log near her home.

Miss Glenna Cornett and Eva Cornett, daughters of Mr. and Mrs. Chester Cornett from Brutus, visited with Mr. and Mrs. Corbett Barger at Saul over the weekend.

TRUTH-AD BY WINN T. BARR FOR THE UNCHURCHED

The good NEWS belongs in the NEWSroom, but LOOK in the BOOK it comes from, and SEARCH for the CHURCH that obeys that book most fully.

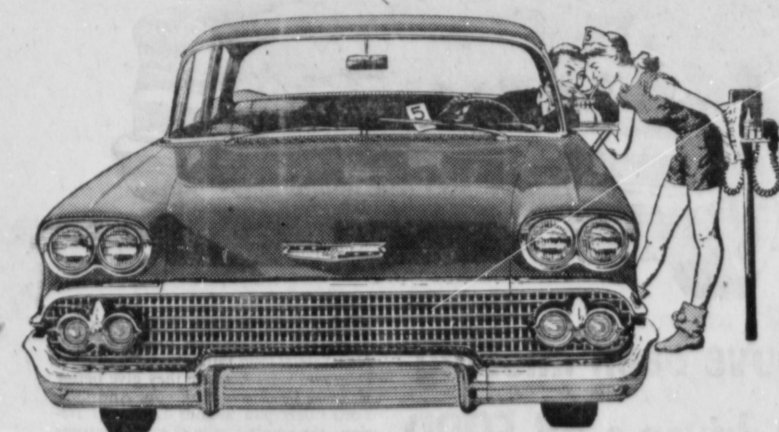

Christ is both God and man.
Christ died and came to life again.
Christ died to be your death for you, and arose to be His life in you.
Christ died to keep you from being punished, and arose to keep you from sinning.
Christ died in your likeness, and arose to make you in His likeness.
Christ wants to give you His merit and His Spirit.
Christ wants to be your Saviour and Lord.

(This column has not been and will not be engaged in debate. To address the unchurched, and explain Scriptures that are frequently misinterpreted, so that any sincere truth-seeker can at least keep his bearings, is one purpose of this column. But to address the church, and mention an opponent and try to refute all he says and proselyte his followers is quite another thing. That would be debating; that has never been done in this column.)

Methodist To Expand Jackson Site

Plans to expand the Methodist Mountain Mission at Jackson, were given impetus recently when the program was classified as a General Advance Special by the Board of Mis-

sions of The Methodist Church. This action clears the way for the mission to solicit funds up to \$25,000 from Methodist churches throughout the nation. The churches, in turn, will re-

ceive official credit for contributing to an advance special project. The Methodist Kentucky Conference Board of Missions has also approved it as a Conference Advance Special.

The result of the recent action is a plan to launch a new seven-point program for enlarging the scope of the mountain project, according to the Rev. John H. Lewis, supervisor. Four phases of the work—churches, radio programs, religious education, and stores—would benefit.

Goals are: a daily radio program on every station in the mountains. (A weekly program, from 3:30 to 4 p.m., Sundays, is now broadcast over station WMTG.) A religious education program, using religious films to reach 15,000 young people and children. (Between 1,200 and 1,500 now receive such education.) A new store, probably located in Barbourville, to supplement the other three now operated by the mission to supply clothing and other

Denver Miniard, Cornettsville, Supervisor of the Perry County S. C. D., started work this week on establishing 20 acres per-

household articles to people of the area. Used articles for the stores are contributed by Methodist churches in the Kentucky Conference and two districts in the Louisville Conference. Mr. Lewis collects them in his truck and takes them to the main store at Jackson, where they are sorted, mended, cleaned and distributed among the stores.

One of the musts, Rev. Lewis says, is the addition of rooms to the missions two churches at Hampton and Wolverine. Money is also needed to complete improvement and building programs at the Vico and Everts churches. A new church in or near Barbourville is listed as another need. The plan is to start with one unit and add others as funds permit.

manent pasture.

The seedbed will be prepared by removing brush and trees and leveling of land with bulldozer. The seeding mixture will consist of Ky. 31 Fescue and Ladino Clover.

Denver plans to use a fertilizer treatment as indicated by a soil test. He is receiving technical assistance in the establishment of pasture from the Soil Conservation Service.

Plans were developed this week by SCS for restoration of land severely damaged by the 1957 flood on Green Holliday's farm at Rowdy.

Holliday is a supervisor and cooperor of the Perry County SCD. He plans to begin the restoration work as soon as the water in Troublesome Creek runs down enough to permit a bulldozer to work in the creek. D. A. Colson, Management Agronomist, SCS, Ashland, was in Perry County this week reviewing agronomy work with SCS personnel on several farms in the county.

Mrs. Dora Lucas Dies In Indianapolis

Mrs. Dora Lucas, 61, died at Indianapolis, Ind., on May 14th at 10:30 A. M., at the General Hospital.

Mrs. Lucas was born in Owsley County, Kentucky and had lived only a year in Indiana. She formerly lived in Hazard. Her husband was the late John Lucas.

Mrs. Lucas is survived by three sons: Eli and John Jr., both of Indiana, and Jeff Lucas of the United States Army. She is also survived by three daughters, Mrs. John Smedley of Hazard; Mrs. Frank Noplis of Hazard; and Mrs. Clarence Collins of Lothair. Also surviving is her mother, Mrs. Sam Howard, twelve grandchildren and three brothers and two sisters.

Funeral services were held Sunday, May 13, at 2:00 p. m., at the Maggard Funeral Home Chapel, with the Rev. Roland Eversole, officiating. Burial was in the Riverside Cemetery under the direction of the Maggard Funeral Home.

Firesweep Adds Impetus To DeSoto

De Soto's ultra-low priced Firesweep series, which made its initial appearance on the automotive scene during 1957, accounted for 36 per cent of all De Sotos sold during the 1957 model year, it was announced by J. B. Wagstaff, vice president.

"We are gratified by the public acceptance Firesweep won," said Mr. Wagstaff, "especially when you consider this figure is nearly three times better than any car has ever achieved in its introductory year."

The Firesweep, which this year adds a convertible to round out De Soto's low-priced series, had been built at the request of dealers who felt tremendous opportunities were to be gained in the lower-medium price range. "The success of Firesweep is capturing over one-third of all De Soto sales during 1957 bears out our dealers' confidence that they could crack this competitive market," Mr. Wagstaff said.

Dubbed "surprise car of the year" by Car Life Magazine, Firesweep played an instrumental role in pushing De Soto's total 1957 production figure 10 per cent over the previous year. The Firesweep is expected to claim an even greater percentage of sales in 1958 with a four-door sedan, two-door Sportsman (hardtop), four-door Sportsman (hardtop), Explorer Station Wagon (3 seat), Shopper Station Wagon (2 seat), and convertible.

De Soto has made a steady climb in increasing market penetration since the introduction of the first "Forward Look" cars in 1955. In that year, De Soto sales skyrocketed 18.7 per cent to give the division 1.65 per cent of national sales.

During 1956, when a majority of automobile manufacturers were experiencing a leveling-off period, De Soto was one of the five of 17 car producers to claim an appreciable market increase.

National sales in 1957 again jumped by nearly 10 per cent, giving De Soto a 1.82 market penetration figure—an increase in total sales of 31 per cent since 1954.

In analyzing De Soto's increasing sales picture, Mr. Wagstaff said that conquest sales are presently accounting for one out of every two De Sotos sold. "On top of this," Mr. Wagstaff declared, "we are enjoying a 20 per cent increase in sales over last year among cars in the same price class." He praised the Firesweep as being "the main reason" conquest sales are on the increase.

"A major portion of De Soto's success can naturally be attributed to the overwhelming styling success of our 1957 products," Mr. Wagstaff emphasized. He cited several customer survey studies which showed

94 per cent of De Soto owners rated exterior styling as "excellent," with 92 per cent giving the same rating to interior styling.

"With 18 models in three series to choose from in 1958, and the widest range of color combinations and interior fabrics in history, we are confident the coming year will rank as one of De Soto's finest," Mr. Wagstaff stated.

W'town Citizen Dies In Hamilton

Mrs. Martha Jackson of Walkertown, died on May 11th in Hamilton, Ohio. She was 64 years old, and is survived by four sons: Artie Combs of Walkertown; Gordon Combs, Cincinnati, Ohio; Burl Combs, and Jackie Combs of Ohio. Also one daughter, Mrs. Nannie Hensley of Ohio. One brother and one sister also survive.

Funeral services were held Wednesday, May 14th at 10 a.m. at the Engle Funeral Home with Rev. R. S. Combs and George Centers, officiating. Burial was in the Riverside Cemetery with the Engle Funeral Home in charge of the last rites.

Wise Owl Ornament Is Smart

Have you ever lost valuable time trying to find a new friend's home? If you've ever been in this predicament you'll appreciate the value and convenience of a lawn or driveway marker that identifies your home.

The Wise Owl illustrated above does double duty. Besides providing an attractive lawn ornament, the license plate bolt eyes reflect headlights and flashlight beams at night.

Making your house easy to locate adds an important safety factor. You lessen time required to find it in an emergency. One never knows when a new delivery boy from a drug store, carrying something urgently needed, may decide he can't find your house and take the prescription back to the store.

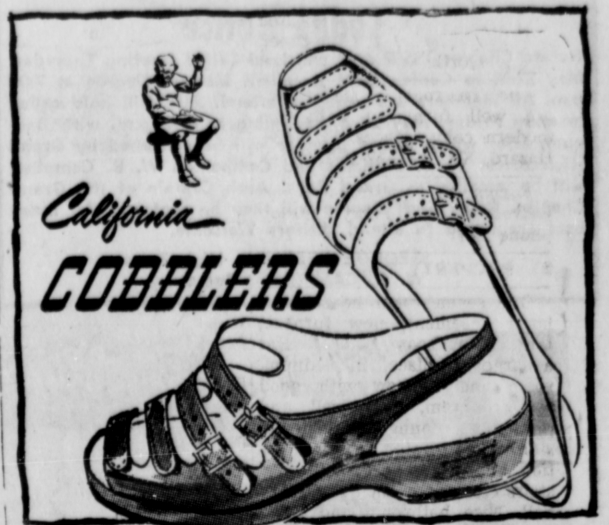

The pattern offered below tells exactly how to make this attractive lawn decoration. Being full-size, it's traced on plywood or hardwood, then cut out with a coping or jig saw. To insure decorating with professional results, pattern provides painting guides which can be traced, then painted with colors pattern recommends.

Send 25c in coin or money order (no stamps please) for Wise Owl Lawn Marker Pattern No. 587; send additional 35c for 64 page catalog illustrating over 300 other "build it yourself" projects to Pattern Dept., Hazard Herald, P. O. Box 215, Pleasantville, N. Y. Add an extra 10c if payment is made by check.

The Meaning of "Friends" Explained In The Scriptures

"I have friends" that is the thought of Jesus when He was talking to His disciples: "In the fifteenth chapter of the gospel of St. John, we read greater love hath no man than this, that a man lay down his life for his friend. 'And Jesus said to His disciples, that ye are my friends, that ye are my friends, if ye do what I command you. Therefore I call you not servants: for the servant knoweth not what his lord doeth: But I have called you friends, for all things that I have heard of my father I have made known to you.'"

THE HAZARD HERALD
HAZARD, KENTUCKY
Thursday, May 22, 1958

A friend is more than just an acquaintance, even more than just a person well known. "Yes, even more than some one that we may have a special fondness for, 'Yes, more than that, a friend is more than just a pleasant companion for a days leisure, a days outing: Friendship is based upon mutual regard, and mutual understanding between two or more people."

There must be an agreement in thought and outlook so far as mental things are concerned, "But not particularly in petty matters." "Amos, third chapter and the third verse, 'how can two walk together unless they agree? 'One of our great writers says that a man should keep

his friendship in constant repair." As friendship is something that you can not buy or command: "But oh' how easily that friendship can be destroyed or be lost. It is not well to take a friendship for granted, for friendship is a growing harmony between two minds and two hearts, when you make new friends, keep them, and you will find that you have added much to the richness and happiness to your life."

Life is made up of many complex influences, now, there is hereditage, "which is frequently overestimated. "There is our child hood home influences, whose very atmosphere grows into the texture of a growing child's life. The training in a home, or the lack of home training bring its fruits, for good or evil in the future years. It is a critical period in the lives of young people when they begin to make friends on the outside of the home."

It was once asked of the Prime Minister, for a suggestion for a successful life, his answer, "choose wisely your companions, 'for youths companions makes them what they are: "and then one hundred years before this question was asked, George Washington wrote in his boyhood book "as associate yourself with men of good quality, for it is better to be alone than to be in bad company."

Oh! how the hearts of these disciples thrilled to these words of Jesus, "I have called ye friends": It was like a new revelation of the personality of Jesus: "Of course they loved Jesus, and was ready to serve Him to the uttermost, and you will notice that He does not call them servants, but He calls

them friends: "With all the intimacy and mutual understanding which the word 'friend' can possibly convey, it gave the Disciples a new outlook on life, and how often in the later years, in the many times of distress, and through trial and tribulations, they would say one to another, "What a Friend We Have in Jesus, all our sins and grief to bear, what a privilege to carry everything to him in prayer."

Now, there must always be two parties to a friendship. Oh! we know that it is true that it will take two to make a quarrel, or disagreement, but it also takes two to make a friendship. I think that when Jesus called His Disciples Friends: It was the first time that they could understand that Jesus needed their love and confidence, even as they needed the love and confidence of Jesus, the same as we need Jesus as of this day. Yes, Jesus is a friend of all men, "Jesus is the lover of all souls. The Pharisees sneered at Jesus, saying, He is a friend of Publicans and Sinners, how right they were. Jesus took up this title which was meant to be a slur, and worked it as a badge of honor: "Jesus said, that I am come into the world to save sinners, and Paul, the great Apostle adds to that: "Of whom I am the chief sinner." But here let us remember that the friendship must be on both sides, there can not be a friendship so long as love is only on one side, "Christ loves us and we must love Christ if it is to be a friendship. "There is no friendship until the love of our hearts leaps up in response to the love of Christ: "We love Him because He first loved us."

He who has acquired a true

and trusted friend, has a great treasure and a constant source of comfort and joy and inspiration;

Some one asked Elizabeth Browning, what had been the secret of her lovely life and inspiration of her exquisite poetry. Her answer was, "I had a friend". Some great friendships have passed into history and have become classic examples of love and heartfelt devotion, such as the friendship of David and Jonathan, and of Damon and Pythias, but the greatest of all friendships, is when Jesus says to frail and sinful human beings, "Like you and me": "You are my friends": But we must treat Jesus as a friend, "share with Him our confidence, our joys and our sorrows, and ask His help daily with our burdens and problems. For Jesus is our friend." An aged woman worried with many years, came into a train carrying a heavy basket on her arm, a kindly stranger said to her, "Just lay your basket down, 'Mam', the train will carry both you and your basket". The lady replied, "That is right". "Lay your burden down and the Lord will carry both your burden and you"; "And the old Hymn still reaches out into our minds and hearts: "Are we weak and heavy laden, cumbered with a load of care? Precious Saviour still our refuge, take it to the Lord in prayer, can we find a friend so faithful, who will our sorrows share, Jesus knows our every weakness, take it to the Lord in Prayer."

"Oh' yes, like Elizabeth Browning, "We too have a friend", a friend that will stick closer than a brother, Oh' these earthly friends may be alright, "But this Friend has no limitation, "This heavenly friend will and can go all the way."

COUNTY AGENTS MEMO

Berry Grading Demonstration Planned Here

Paul Keen, County Agricultural Extension Agent John Caudill, Associate County Agent

W. I. Farmer, area agent in fruit and vegetable marketing will assist with strawberry grading and picking demonstrations Monday, May 26, at 9:30 a.m. at Ivory Crafts, Viper; and at Tug Bakers, Avawam at 1:30 p.m.

Mr. Farmer will demonstrate the proper method of picking strawberries for fresh and processing market, grading, and packaging. He will also discuss picking, market outlook, and other practices. All strawberry are urged to attend.

Borers Are Damaging
Protect trees and ornamentals against the various tree-borers. Prevention (treating before the borers appear) is much better than cures (after they have appeared).

Borers like ash, peach, dogwood, birch and lilac in particular, but will attack others. Their presence is indicated by very fine sawdust on trunks or limbs at or near the tiny holes the borers make. On peach trees, the evidence is oozing gum from tiny holes.

Apply a 50 percent DDT wettable powder during late spring and summer as a preventive or even as a control measure if the borers have appeared. Use 6 pounds of the material per 100 gallons of water; or six tablespoons per gallon of water. Spray on if large trees are

infested; for small trees, paint the material on with a paint brush, using four ounces of DDT wettable powder in a quart of water.

Apply at three-week intervals starting on the following schedule: ash lilac, and dogwood, early in May; birch, May 20; apple and ash, June 1; and peach, June 10.

For owners of home peach orchards, circular no. 554 has complete information on the peach borer.

Bluestone
Bluestone—lime treatment should be applied to tobacco beds to control leaf spot disease. Wet weather makes treatment very important especially for wildfire.

The standard mixture is three pounds bluestone and four pounds hydrated lime in 50 gallons water. Thoroughly mix and sprinkle with canvas still over the bed. Sprinkle until canvas is bluish cast. Sprinkle edges and sides four to six feet outside bed.

The first treatment should be made when two or three leaves of plant are visible and follow up a week later with a second application. Make a third application after weeding plant bed.

Elmer Eversole, owner of the local processing plant stated

that he would begin receiving strawberries for processing Monday, May 26. Growers should bring berries to "Pete" Sally's place across bridge at Walkertown.

Brothers Graduate From Vol College

N. Dean Franklin and Richard K. Franklin, sons of Mr. and Mrs. Garland Dean Franklin of Emmalena, will graduate Tuesday, June 3, from William Jennings Bryan University, a Christian liberal arts college in Dayton, Tenn.

They were both history majors at Bryan and have been active in the Promethean literary society. Richard was president of his class during his sophomore, junior, and senior years.

Local UK Student In SDX Fraternity

Guernsey Norman, a University of Kentucky junior from Hazard, recently was installed as president of the University of Kentucky chapter of Sigma Delta Chi, men's journalism honorary, at a banquet at the Coach House in Lexington.

Norman is a son of Mrs. G. W. Norman, and is a graduate of Stuart Robinson High School. Norman will work this summer for the Hazard Herald, Mrs. W. P. Nolan, business manager, announced this week.

'Skyline' Highway Is Studied

Several members of Congress want to explore the possibility of a "skyline drive" along the top of the Cumberland Mountains.

The road might link the breaks of Sandy, a joint Kentucky-Virginia state park near Elkhorn City, with Cumberland Gap National Park near Middlesboro.

Its general path would be the Kentucky-Virginia line. It would be about 95 miles long and cost perhaps \$50,000,000.

Senator A. Willis Robertson (D., Va.) and four members of the House wrote the National Park Service to learn whether the N.P.S. would think such a plan feasible and would favor it.

Most of Route in Forest The representatives were Carl D. Perkins, Hindman Democrat; Eugene Siler, Williamsburg Republican; W. Pat Jennings, Marion, Va., Democrat, and B. Carroll Reece, Johnson City, Tenn., Republican.

The group said it thought there would be no difficulty getting rights of way. Most of the route lies in Jefferson National Forest, and the remaining would be donated by the owners.

Recognizing the tourist value of the Blue Ridge Parkway" in Virginia, the group wrote, we "feel that an even more attractive scenic highway could be built along the top of the Cumberland Mountains."

Road Links Indicated Highway at the ends of the route might be Kentucky-Virginia Route 80 near Breaks of Sandy, and U. S. 25-E at Cumberland Gap.

The new route would weave back and forth into Kentucky and Virginia, perhaps going into Tennessee briefly near Cumberland Gap.

The Bureau of Public Roads has agreed to make a preliminary reconnaissance and furnish maps for a further study, the congressmen said.

Livestock

There were more national livestock events at the University of Kentucky, Lexington, during the last several years than at any other land grant school in the United States.

Ashland Dairies
Dixie Ice Cream Company

May 22, 1958

Dear Mr. and Mrs. Perry Countian

Ashland Dairies and Dixie Ice Cream Company wish to take this opportunity to express our thanks and appreciation to the people of Perry County for their years of patronage.

As we look back over 38 years of business in Southeastern Kentucky, it is with pleasure that we recognize our success here has been the result of the wonderful reception given our products by you—the customer.

We know we have served you with quality dairy products, and that our service and products have been the key to our continued success among the people of this region.

Since 1920, the names of Dixie Ice Cream Co. and Ashland Dairy have been closely related to the history and development of Perry and adjoining counties.

We shall continue to provide courteous and efficient service to our customers, and to maintain a complete inventory of quality dairy products so that all Southeastern Kentuckians can be sure of a complete selection of the finest in dairy foods.

Respectfully,

John H. Kloccher

President
Dixie Ice Cream Co.
